

9.2 Visualisations & Effect on Street Scene

View as Proposed

9.2.4 View from East along Wharfdale Road

From Wharfdale Road, the stepped facade also addresses the scale of buildings to the south and west.

The combination of London Stock and blue brindle brickwork again complement surrounding buildings.

The use of grey window frames, relief panelling and expressed steel beams also complement those of adjacent buildings.

View as Existing

9.2 Visualisations & Effect on Street Scene

9.2.5 Evening View from York Way

At night, the building frontages to York Way and Wharfdale Road are enlivened by external lighting, as outlined in section 8.13.

Active frontages to the retail units, hotel entrance and restaurant provide bright inviting spaces along the along the pavement.
